

## LATISSE® CONSULTATION

Latisse is a FDA approved prescription treatment used to grow eyelashes making them longer, thicker and darker. Significant improvement may be seen within two to four months. Our medical esthetician will provide you with an informative consult on the proper use of Latisse.

*\$60 Consultation*

## MINERAL MAKEUP CONSULTATION

Join one of our estheticians to discover unique techniques of mineral makeup application. Safe for even the most sensitive skin, mineral makeup can be used as a foundation, powder, and concealer in one product. Ideal for rosacea, acne, and very sensitive skin conditions, it comes recommended by the Skin Cancer Association and provides a Sun Protection Factor of 20.

*\$35 for New Patients (Complimentary for Existing Patients)*

## FACIAL WAXING

Revive your eyes with a clean shaped brow as well as any other waxing needs.

*Face Only*

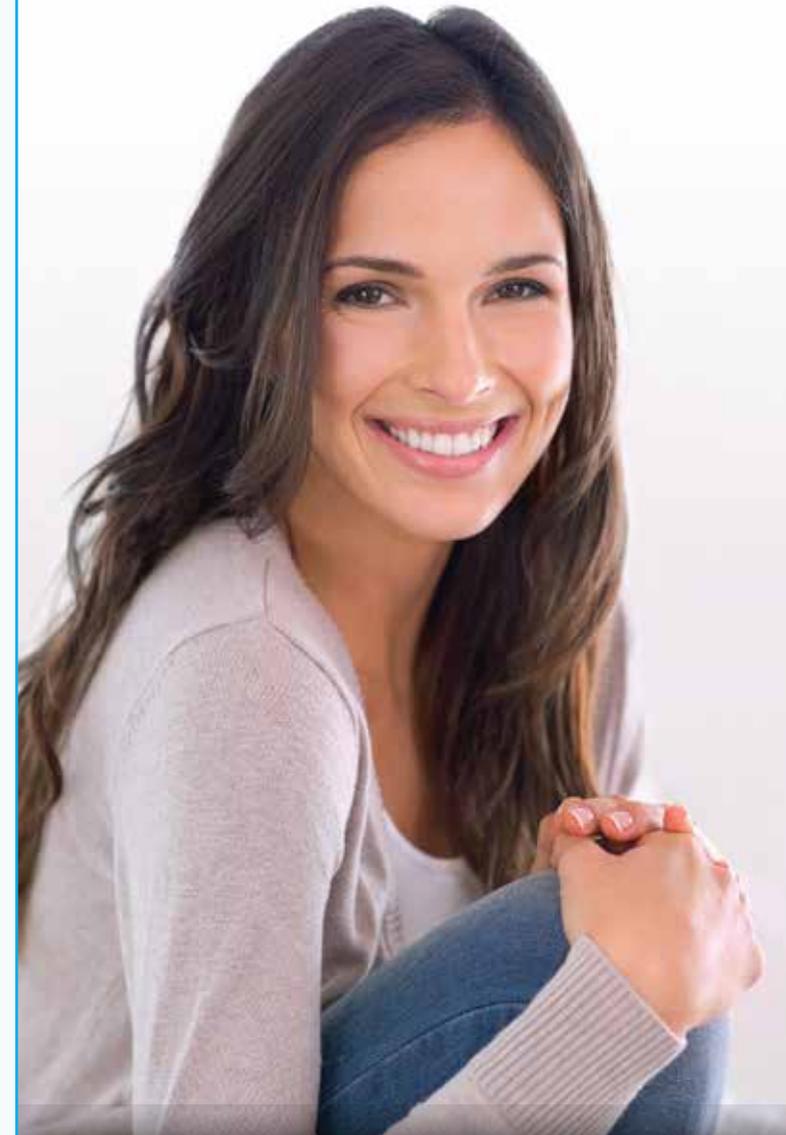

EYEBROWS – \$14

LIP & BROWS – \$22

FACE – Starting at \$24

## FACIALS

### SKIN CARE CONSULTATION

Our medically trained licensed estheticians will analyze your skin type, help you choose cosmetic and therapeutic products and design a treatment plan specifically for you.

*\$60 New Patients • Complimentary for Existing Patients*

### SIGNATURE FACIAL

Provides a customized and relaxing facial tailored to your specific skin type. Our products are dermatologist recommended and suitable for all skin types and conditions. Your medical esthetician will work with you to achieve optimal satisfaction.

*\$85 • Series of 5 / \$345 (Includes Extraction)*

### ILLUMINATION FACIAL

This facial begins as our signature facial and then combines with powerful, stimulating and brightening ingredients such as glycolic and lactic acids. This facial will give your skin a more illuminated, smooth and radiant appearance. Suitable for even the most sensitive skin.

*\$95 (Includes Lactic Acid Brightening Solution)*

### LUXURY FACIAL

We begin this ultimate facial experience with a 20-minute relaxing back and light foot massage. As the stress and tension diminish from your body, our licensed estheticians will begin your facial designed specifically for you and your skin care needs.

*\$110.00*

### ACNE FACIAL

Our medical esthetician will address the need of your acne prone skin. Deep cleansing is performed along with a specific exfoliation directed at problem areas. Extractions will then be performed. Finally, a selected mask will help to soothe and calm your skin. Product and skin care education will play an integral part in this treatment.

*\$85 (Includes Extraction)*

## LASER TREATMENTS

### OMNILUX ACNE TREATMENT

Combination light therapy for the treatment of acne vulgaris. Utilizing LED technology to destroy bacteria, stimulate cell growth and decrease inflammation.

*\$200 Series of Eight (Springfield and Longmeadow Offices Only)*

## IPL SKIN REJUVENATION

IPL is a broad-spectrum light treatment to improve the appearance of photoaged skin by reducing the appearance of brown and red spots, and fine lines. It may improve the overall tone and texture of the skin as well. The treatment can be used on the face, neck, chest, back, forearms, and hands. Typically, multiple treatments are required to obtain an optimal result.

## LASER HAIR REMOVAL

Under the supervision of our board-certified dermatologists, our licensed estheticians will help you to reduce and manage unwanted facial and body hair. A minimum of 4 to 6 treatments for each area to be treated, spaced at consistent intervals, are necessary to see results. An initial consultation will be needed to effectively answer your questions and to educate you on the laser hair removal process.

*Starting at \$100*

## CHEMICAL PEELS

Chemical Peels are an accelerated form of exfoliation created by acids that produce controlled injury to the skin. There are many types of peels for many different indications such as pigmentary disorders, fine lines and wrinkles and to improve the tone and texture of your skin. A consultation will determine which peel is best suited to your needs. All peel candidates will be screened by one of our physicians prior to being treated.

### GLYCOLIC, SALICYLIC, JESSNER AND LACTIC ACID PEELS

- Individual Peels start at **\$85**
- Peel Packages start at **\$345**

See one of our estheticians to see which peel is best for you.

### PERFECT 10 CHEMICAL PEEL

Medical-grade chemical peels featuring layered technology, integrated with All-trans Retinol complex, a proprietary acid blends and antioxidants. The have been specifically developed to promote healthy skin and improve the appearance of:

- Dull and uneven skin tone and texture
- Fine lines and wrinkles
- Dark spots and sun damage
- Discoloration
- Pore Size
- Pigmentary irregularities

*\$125*

## REJUVENATION

### MICRODERMABRASION

This is a skin exfoliating procedure used to improve the tone, texture, and color of the skin and is especially helpful in improving the lusterless appearance of facial skin that often accompanies photoaging. It is also helpful for improving minor facial discoloration and very fine lines or wrinkles. Acne blemishes, blackheads, and whiteheads can likewise be improved. Fine crystals are projected onto the skin causing exfoliation and stimulating new collagen formation. The procedure is nearly painless and there is little or no time needed afterward for recovery.

*\$90 • \$325 Series of Four*

### MICRO-NEEDLING

Percutaneous Collagen Induction Therapy or Micro-Needling is a method of introducing a controlled wound into the skin, triggering a release of growth factors, new collagen, and elastin with limited down time. It can be used on all skin types and addresses a variety of concerns such as scarring, hyperpigmentation, and fine lines. Three to six treatments are recommended for optimal results.

*Starting at \$300 (Inquire with one of our Estheticians)*

### DERMAPLANING

Dermaplaning is one of the most effective facial exfoliating treatments available in a medical spa setting. It is a process that has been used for over the last two decades, by itself or in conjunction with chemical peels which allow for better penetration of the peel solution. The result is smoother, softer skin along with better product absorption. It is a quick, noninvasive and painless procedure in which the dead skin cells are scraped away. There is no recovery time and the results are immediate.

*\$60 • Add to a Peel or Facial for \$30*

### CLINICAL TREATMENT

This is an ideal treatment for patients with the desire to have their skin extracted without having a complete facial. Our medical esthetician will perform extractions of the face or back in our relaxing suite. This service may be recommended by your dermatologist.

*30 Min. \$65*
