

Dermaplaning

Dermaplaning is one of the most effective facial exfoliating treatments available in a Medical Spa setting. It is a process that has been used for over the last two decades by itself or in conjunction with Chemical Peels allowing for better penetration of peel solutions. The result is a smoother, softer skin along with better product absorption. It is a quick, noninvasive, painless procedure in which the dead skin cells are scraped away. There is no recovery time and the results are immediate.

CHEMICAL PEELS

Chemical peels are an accelerated form of exfoliation created by acids that produce controlled injury to the skin. There are many types of peels for many different indications such as pigmentary disorders, and fine lines and wrinkles to improve the tone and texture of your skin. A consultation will determine which peel is best suited to your needs. All peel candidates will be screened by one of our physicians prior to being treated.

Spicy Detox Mud Wrap

Relax and unwind with this full body spa treatment designed to exfoliate, increase circulation, and detoxify your skin. Cinnamon and Hungarian herbal mud warms the skin and aids in the relaxation of muscles. After a soothing shower, an application of hydrating lotion is applied.

60 Min. \$75

Reiki

Reiki is a Japanese touch therapy that can promote healing and well being. Reiki is based on the idea that everything in the universe is made up of energy and “life force” which flows through us, thereby nourishing our cells and organs. Unlike a massage, it is administered through light touch generating heat. The patient is reclined and fully clothed, and the practitioner's hands are placed along the energy centers starting at the head and ending at the feet. A deep sense of relaxation and peace is our goal with the completion of this treatment.

60 Min. \$75

MEDICAL ESTHETIC TREATMENTS

Micro-Needling (CIT)

Percutaneous collagen induction therapy or Micro-Needling is a method of introducing a controlled wound into the skin triggering a release of growth factors, new collagen, and elastin with limited down time. It can be used on all skin types and addresses a variety of concerns such as scarring, hyperpigmentation, and fine lines. Three to six treatments are recommended for optimal results.

• Face or Stretch Marks – **Single Treatment \$300**

Series of Three \$750

• Non-Facial Scarring – **Single Treatment \$250**

Series of Three \$600

Microdermabrasion

Microdermabrasion is a safe non surgical method of refining the appearance of your skin. It works well with other therapies such as facials and chemical peels by removing the outer layers of skin so that your preferred adjunctive treatment will be more effective.
